The Buffalo Courier says: "During its first eight months the Administration has made about twenty-five times as many appointments as were made during the eight years of Thomas Jefferson's Administrations and wore than the number made by Andrew Jackson in eight years. The appointments that an administration is now compelled to make each year simply to fill vacancies caused by death or resignation exceed the total number of Federal offices in the days of Jefferson. The Administration of public affairs, with their present magnitude and complications, is attended with numerous difficulties and year responsibilities unknown to the carlier Presidents. The bringing in of new agencies to aid the appointing power has been the result of a necessity that in the very nature of things it has been impossible to ignore without danger to honest and efficient Administrative reform in National, State and Municipal affairs will demand the carnest and thoughtful attention of all friends of good government." THE result of the recent elections in England was a big surprise to the Liberals. Last year they had a good working majority in Parliament over the Conservtives, but now, "things ain't what they used to be," and the present indications are that neither of the two great parties will have a majority. It is very likely now that Parnell will hold the balance of power in his bands, unless a combination be formed against him. In speaking of Parnell and his work in the elections just closing, the New York Mercury says: of Parnell and his work in the elections just closing, the New York Mercury says:

"By a single masterly stroke of policy, Mr. Parnell, the sugacious Irish leader, has revolutionized the politics of England in a week. Through his efficient aid the Conservatives have made great gains in the recent elections, and Salisbury holds the reins of administration with a grip which leaves Glastsone far out in the cold. Now it remains to be seen of what stuff the promises of peers are made. Parnell holds the pledges of the Conservatives, and should they refuse to redeem them and to give Ireland the blessings of local self-government, the Salisbury ministry will vanish like frost before the sun. The Irish leader is entitled to the laurels he has won in the victory his own sagacity created. It is the highest proof of statesmanship to reconize his opportunity and seize it."

One of the most successful jail deliveries heard of for some time was the one that occurred at Frankfort, Monday night. George McLasghlin, Jacob Boyd,
John Martin and Richard White, the Doris circus robbers, and Charles Baily a negro thief all made their esce pb y cutting through the walls of the jail and invering themselves to the ground by means of a couple of blankets. McLaughlin had been convicted and was under a five-year's sentence but had appealed his case. He left a note to the jailer in which he claims his innocence of the offense with which he is charged.

Tennyson says in his latest poem of

Spring:
"The blackbirds have their wills,

The blackbirds have their wills,
The posts too."
The blackbirds often have the best of
it, too, for they seldom have dyspepsia
or debility, while many poets have both
these diseases, as can easily be seen.
Poets and others afflicted with dyspepsia
or rheumatism, can obtain speedy and
complete relief by using Brown's Iron
Bitters. Mr. Timothy Seek, Pleasant
Grove, P.a., says he was cured of dyspepsia of two years' standing by taking one
bottle of Brown's Iron Bitters.
